**SPECIFIC COMMENTS TO AUTHORS**

The authors have used the NICE criteria for NBI and have evaluated their performance in the community. They have compared their performance with the PIVI. This is a nicely written article. Although most articles in the past have demonstrated that NBI for polyp

resection can be used in the academic set up, very few articles have demonstrated that it can be adapted to the community practice. Articles like above show that it is feasible. As the authors suggested, we need more practitioners adapting this technique to ensure this is the norm and we can use the diagnose by NBI and resect technique of the polyps.
