Title: Personalizing therapies for gastric cancer: molecular mechanisms and novel targeted therapies

Author: Michael Luis; Ana Tavares; Liliana S. Carvalho; Lúcio Lara-Santos; António Araújo; Ramon Andrade de Mello.

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 4594

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

Reviewer I - "The authors reported about from mechanism to clinical data of Her2 in gastric cancer in very detail. Moreover, they reported about not only trastumab but also other novel anti-Her2 agents. So this article is very interesting, exciting and educational."

Reply - thank you very much for your comments. We also submitted the manuscript for a English review by a native English speaker.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Ramon Andrade de Mello'.
