## Biostatistics Statement

**Manuscript title:** Unmodified autologous stem cells at point of care for chronic myocardial infarction

**Manuscript number:** 46609

The statistical analysis was performed by co-author Dr. Christoph Schmitz based on his experience from performing statistical analysis in more than 100 preclinical and clinical studies published in peer-review journals (<https://www.ncbi.nlm.nih.gov/myncbi/browse/collection/50880958>), and was reviewed by the senior and corresponding author, Dr. Eckhard U. Alt. Calculations were performed using professional, licensed software (GraphPad Prism version 7.0 for Windows, GraphPad software, San Diego, CA, USA).

Dr. Christoph Schmitz, MD  
Professor and Head of the Department of Anatomy II  
Ludwig-Maximilians-University
