## **Reviewer(s)' Comments to Author:**

- 1) Please revise the manuscript according to the review report and my comments. And answer all of the reviewers' comments carefully (point-to-point).

Please see below.

- 2) Our policy for the Case Report manuscript requires the title to include the disease name, the number of cases, and the phrase "literature review". In addition, the description of the paper as a literature review must be supported by the manuscript's content. Please update the reference list and add references with accompanying textual content that will strengthen the manuscript as a literature review of the appropriate and up-to-date case-related information. Please note that if authors only add the words "literature review" to the title, but do not revise the textual content of the manuscript to provide a literature review, the manuscript will be rejected.

The title has now been changed to "Vedolizumab in combined immune checkpoint therapy-induced infliximab-refractory colitis in a patient with metastatic melanoma: A case report and literature review" and a literature review has been done including manuscripts published recently. [We have also described our search methodology.](#)

- 3) Please provide the author contributions. See the format in the attachment file-revision policies. The format of this section should be like this: Author contributions: Wang CL and Liang L contributed equally to this work; Wang CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed research; Wang CL, Zou CC, Hong F and Wu XM performed research; Xue Jz and Lu JR contributed new reagents/analytic tools; Wang CL, Liang L and Fu JF analyzed data; and Wang CL, Liang L and Fu JF wrote the paper.

The following has now been added:

**Author contributions:** Randhawa M, Gaughran G and Archer C contributed equally to this work and wrote the paper; Randhawa M, Gaughran G, Archer C, Pavli P, Ali S and Yip D were involved in care of this patient and review and revision of this paper.

- 4) Please make an audio record of your core tip. The accepted formats are: mp3/wma.**
