Social jetlag, obesity and metabolic disorder ...

www.ncbi.nlm.nih.gov › Journal List › HHS Author Manuscripts

METHODS. We studied participants from the population-representative Dunedin Longitudinal Study (N = 1037) to determine whether social jetlag was **associated** with clinically assessed measurements of **metabolic phenotypes** and disease indicators for **obesity**-related disease, specifically, indicators of inflammation and diabetes.

Observational Study

Different metabolic/obesity phenotypes are differently associated with developing of pre-diabetes in adults: Results from a 14-year cohort study

Fahimeh Haghighatdoost, Awat Feizi, Ashraf Aminorroaya, Majid Abyar, Masoud Amini

Abstract

Background and objectives: The risk of developing prediabetes based on the metabolic/obesity phenotypes has been poorly investigated. The aim of this study is to
