To Whom So Ever It May Concern

This is certified that there are four Biostatisticians among the authors (except 3rd & 6th) of the article, "Effectiveness of Taxanes over Anthracyclines in Neoadjuvant Setting: Systematic Review and Meta-analysis", Manuscript No. 46811. The complete analysis was carried out by Mona Pathak herself (as a Ph.D. Student) under direct supervision of my-self (as Chief-Guide for her Ph.D. work). Further, six monthly review of ongoing work including used analytical methods and related results was carried out by a Doctoral Committee appointed by the Dean (Academic) that also involved some more external members including one Biostatistician, as a conventional practice at our institute under Ph.D. program. This certification may be used for any purpose it may be required.
