Colonic diverticular disease is common, but **colon cancer arising** in a **colonic diverticulum** is rare. Since **colon cancer** associated with **colonic diverticular abscess** was first described by Tolley in 1967, only a few **cases** of **colon cancer** associated with a **diverticulum** have been **reported** (3, 4, 5).

Colon cancer can arise from the mucosa in a colonic diverticulum.

Although colon diverticulum is a common disease, few cases have been previously reported on colon cancer associated with a diverticulum. We report a rare case of sigmoid colon cancer arising in a diverticulum with involvement of the urinary bladder, which presented characteristic radiographic images.
