**Liver transplantation for hepatocellular carcinoma: Where do we stand?**

Santopaolo F *et al.* Liver transplantation for hepatocellular carcinoma

Francesco Santopaolo, Ilaria Lenci, Martina Milana, Tommaso Maria Manzia, Leonardo Baiocchi

### Abstract

Hepatocellular carcinoma represents an important cause of morbidity and mortality worldwide. It is the sixth most common cancer and the fourth leading cause of cancer

## Neo-adjuvant therapy for hepatocellular carcinoma before ...

[www.ncbi.nlm.nih.gov](https://www.ncbi.nlm.nih.gov) › ... › v.20(18); 2014 May 14

May 14, 2014 · **Liver transplantation** (LT) for **hepatocellular carcinoma** (HCC) within Milan criteria is a widely accepted optimal therapy. Neo-adjuvant therapy before **transplantation** has been used as a bridging therapy to prevent dropout during the waiting period and as a down-staging method for the patient with intermediate HCC to qualify for **liver transplantation**.
