**Os calcis lipoma: To graft or not to graft? – A case report and literature review**

Balbouzis T *et al.* Os calcis lipoma

Theodoros Balbouzis, Theodosios Alexopoulos, Peter Grigoris

## Abstract

### BACKGROUND

Intraosseous lipoma is a rare benign lesion, commonly affecting the os calcis. Its pathogenesis and natural history are not fully understood, and its management remains controversial.

### CASE SUMMARY

A 56-year-old male complaining of heel pain was diagnosed with an os calcis
