

### **Response to reviewers' comments**

We thank the reviewers for their constructive comments on our manuscript. We have addressed each comment made in our manuscript and detail our responses below. Please let us know if there are any other changes that you feel would improve the manuscript further.

#### **Reviewer:**

This review is very interesting and well written. The topic is also orthopaedic challenge . I strongly recommended publishing this manuscript. Only minor point for improvement is references should be rechecked for comply with article format.

#### **Author response:**

Thank you for your comments. We have checked through the references and made sure that these comply with the journal's author instructions.
