It is unclear how your study differs from that in reference 1: "excellent results" is an inadequate comment. Under STENT PATENCY AND PATIENT SURVIVAL you state "a trend of later occurrence of stent dysfunction", it would be better to point out

SPECIFIC COMMENTS TO AUTHORS

This paper is reported the new type of plastic stent. This stent patency is very long. This study is well considered and well performed. Next large scale sample study(Phase 3) is necessary to show the real usefulness of the newly designed stent.
