## SPECIFIC COMMENTS TO AUTHORS

Although the incidence of gastric cancer related to hereditary diffuse gastric cancer syndrome is not very high, but the disease can place a heavy burden on a family with the patient. Management of patients with HDGC remains challenge. The authors

reviewed what is known and what remains unclear about endoscopic surveillance for HDGC, such as role of endoscopy in HDGC families, the use of different endoscopy technology. Improvement in endoscopic surveillance in HDGC would must be conducive the management of families with HDGC. How about role of magnetically controlled capsule gastroscopy in patients requiring multiple endoscopy examinations?
