

Dear Editor,

We acknowledge the reviewer comments on the manuscript. Please find our responses to the comments as given below:

S. No.	Comments	Response to comments
1.	Please provide language certificate by professional English language editing companies. For manuscripts submitted by Non-Native Speakers of English, the authors are required to provide a language-editing certificate, which will serve to verify that the language of the manuscript has reached Grade A. You can find the details of the language editing process for manuscripts submitted by Non-Native Speakers of English at http://www.wjgnet.com/bpg/gerinfo/240 .	English Editing certificate has been uploaded along with the submission files.
2.	Please state the approval given by the institutes IRB, or explain in detail why the IRB chose to waive this requirement.	Institutional Review Board's official approval has been uploaded As per IEC, in case of prospective studies, there is a need to take informed consent from subjects. However, in this case (ours being a retrospective trial) permission should be taken from the Head of Institution. Thus, the permission letter has been uploaded along with the rest of the documents.
3.	(No more than 20 words): Only the purpose should be included. Please write the aim as the form of "To investigate/study/ ...;	The aim has been incorporated: To investigate 1-year clinical outcomes of Neohexa DES in real practice. (11 words)
4.	<u>Audio Core Tip</u> In order to attract readers to read your full-	An audio file as per the suggested specifications

	<p>text article, we request that the first author make an audio file describing your final core tip. This audio file will be published online, along with your article. Please submit audio files according to the following specifications:</p> <p><u>Acceptable file formats:</u> .mp3, .wav, or .aiff</p> <p><u>Maximum file size:</u> 10 MB</p> <p>To achieve the best quality, when saving audio files as an mp3, use a setting of 256 kbps or higher for stereo or 128 kbps or higher for mono. Sampling rate should be either 44.1 kHz or 48 kHz. Bit rate should be either 16 or 24 bit. To avoid audible clipping noise, please make sure that audio levels do not exceed 0 dBFS.</p>	<p>explaining the core tip has been submitted along with the rest of the files.</p>
<p>5.</p>	<p>Please reformat all the reference numbers like this. Please check throughout. Thank you!</p>	<p>All the references have been reformatted throughout the document.</p>
