

Dear Editor

Thank you again for your attention concerning our manuscript entitled: "**The CRISPR/Cas System: an Emerging Technology in Stem Cell Research**". We replied as recommended from **Reviewers**

**Reviewer #1**

There are some minor typographical/grammatical errors throughout the Manuscript (examples as marked by red track, but not an exhaustive presentation, are attached for your reference in a separate e-mail to the WJSC Editorial Office).

**Thank you for revising our manuscript. As requested we revised the manuscript accordingly**

**Reviewer #2**

This review describes about the CRISPR/Cas system in stem cell research. Core tips may be revised to include the description about other than degenerative disease.

**Thank you for revising our manuscript. As requested we revised the core tips**

**We thank the reviewers for helping us to improve the manuscript quality and accurate reading of the text.**
