March 26, 2019

To the World Journal of Orthopaedics Editorial Board:

**No statistical analyses were performed in this descriptive observational study.** Nonetheless, I have extensive statistical training and regularly perform advanced statistics for research within the Departments of Orthopaedic Surgery at both Massachusetts General Hospital and Brigham and Women's Hospital. Although no statistics were performed, I affirm that all values have been double-checked and are correct.

Sincerely,

Nathan H. Varady  
S.B., Mechanical Engineering, Massachusetts Institute of Technology  
MD/MBA Candidate, Harvard Medical School/Harvard Business School
