

## ANSWERING REVIEWERS

August 26, 2013

Dear Editor,

**Title:** Development of Enterohepatic Fistula after Embolization in Ileal Gastrointestinal Stromal Tumor: A Case Report

**Author:** Yun Ho Lee, Ja Seol Koo, Chang Ho Jung, Sang Yoon Chung, Jae Joong Lee, Seung Young Kim, Jong Jin Hyun, Sung Woo Jung, Rok Seon Choung, Sang Woo Lee, Jai Hyun Choi

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 4777

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) Please add arrows to Figures 3 and 6.

**Answer: Thank you for your kind comments. We added arrows indicating hepatic mass(figure3) and fistula orifice(figure6)**

(2) Please define whether the microscopy in Figure 4 is from the ileum or the liver metastases

**Answer: Thank you for your kind comments. We added highlighted content at Figure4 with yellow bar..**

(3) Why had the patient undergone a previous hemicolectomy?

**Answer: Thank you for your kind comments. We added a phrase at page4 line6 with yellow bar.**

What role did this play in direct extension of the GIST from the ileum to the liver

**Answer: we mentioned in the discussion that the adhesions due to the history of several intra-abdominal operations could be the cause of direct invasion.**

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Yun Ho Lee, MD
