Dear Professor MacDonald

Ref: Small Grant application: Clinical, radiological and immunopathological studies of perianal fistulae

The Bowel & Cancer Research grants committee met recently to consider your application for the above project. The members agreed to grant £25,081 towards the consumables but did not feel that it was appropriate at this stage to release the £6,000 for the transcriptomic chips.

After recourse to you regarding Mr Haddow's MD Res fees they will be happy to support these within the grant.

Therefore, the full grant payable will be £32,577 with a further £6,000 for transcriptomic chips if needed. I note that you stated that you have started the project, and an interim project report will be due in December.

I wish you all the very best with your project and look forward to receiving news of progress later in the year.

Yours sincerely

Deborah Gilbert
