**[Guidelines on the management of hepatic encephalopathy ...**<https://www.pubfacts.com/detail/30293330/Guidelines-on-the...> ▾

The **Chinese Society of Hepatology** developed the current **guidelines on the management of hepatic encephalopathy (HE) in cirrhosis** based on the published evidences and panelists' consensus.

**The nutritional management of hepatic encephalopathy in ...**<https://aasldpubs.onlinelibrary.wiley.com/doi/abs/10.1002/hep.26370>

**Nitrogen** metabolism plays a major role in the development of **hepatic encephalopathy (HE)** in patients with **cirrhosis**. Modulation of this relationship is key to the **management** of HE, but is not the only nutritional issue that needs to be addressed. The **assessment of nutritional status** in patients with **cirrhosis** is problematic.

<https://link.springer.com/article/10.1007/s12072-018-09923-2> ▾

Jan 18, 2019 · Patients with cirrhosis and hypoalbuminemia should consume 1–1.2 g/kg/day of high-quality protein and receive vitamin supplementation. Patients with obvious hepatic encephalopathy should limit protein intake to < 0.5 g/kg/day, along with appropriate nutritional supplements according to guidelines . If nutritional supplementation is given over 3 months in patients with cirrhosis, the serum albumin ...

## Hepatic Encephalopathy

Medical Condition

A brain disorder due to advanced liver diseases

- Confusion
- Changes in mood
- Jaundice

A loss of brain function as a result of failure in the removal of toxins from the blood due to liver damage.

Rare (Fewer than 200,000 cases per year in US)

Requires lab test or imaging

Treatment from medical professional advised

Can last several days or weeks

Caused by liver failure or infections. Symptoms include confusion, unconsciousness and changes in personality. Treatment includes medication and liver transplant in severe cases.

## Symptoms

Symptoms can occur gradually or suddenly depending on the stage the disease has reached

- Musty or sweet breath odor
- Altered loss of consciousness
- Forgetfulness
- Problems in movement with abnormal tendon reflexes
