MDACC Protocol ID #: 2011-0542
Protocol Title: Evaluation of New Magnetic Resonance (MR) Imaging and Spectroscopy
Software
Version: 02
Subject: Contingencies Met - Protocol 2011-0542

Official IRB Approval Date: 10/12/2011

On 11/18/2011 the Institutional Review Board 4 committee, chair, or designee granted approval to the above named and numbered protocol since the contingencies outlined by the IRB 4 on 10/12/2011 have been met.

It was noted that the protocol, informed consent documents (ICDs) and/or the Waivers of ICD and Authorization are satisfactory and in compliance with federal and institutional guidelines. No participants may be entered on this protocol until it has been officially activated by OPR.

In keeping with the requirements outlined in 45CFR46.109(e) and 21 CFR56.109(f), the IRB shall conduct continuing review of all protocols at intervals appropriate to the degree of risk, but not less than once per year.

You are responsible for promptly reporting to the IRB:

- any severe adverse events;
- any death while patient is on study;
- any unanticipated problems involving risks to subjects or others;
- any proposed changes in the research activity (changes may not be initiated without IRB review and approval, except where necessary to eliminate apparent immediate hazards to the subjects).

To activate this study, please compose and send a "Request for Activation" memo in PDOL.

The existing Informed Consent and/or Waivers of Informed Consent and Authorization cannot be used until the protocol is Activated.

If a Material Transfer Agreement (MTA) is required, it must be obtained prior to Activation.

In the event of any questions or concerns, please contact the sender of this message at (713) 792-2933.

Chair, Blanket MRI Clinical Utility Committee
Professor, Diagnostic Radiology

Jason Stafford, PhD
Member, Blanket MRI Safety Committee
Professor, Imaging Physics

RE: 2011-0542-20: Evaluation of Simultaneous Multi-Slice Diffusion weighted EPI Sequence for Abdominal Imaging

Dear Dr. Szklaruk,

On December 19, 2016, your sub-project numbered: 2011-0542-20 was reviewed and enormously approved by PI of the Blanket MRI protocol: 2011-0542, the MR Safety committee and MR Clinical Utility Committee.

On behalf of Dr. Madewell, we are pleased to inform you the above referenced sub-project: 2011-0542-20 has been approved for 20 total patients.

We thank you for the submission of your grant application, we wish much success with your sub-project.

If you have any questions about the review of these study, please contact Sujaya Rao, Director - Division Research Development.

Thank you,

Date: December 19, 2016

RE: 2011-0542-21 Evaluation of Simultaneous Multi-Slice Diffusion weighted EPI Sequence for Prostatic Imaging

Dear Dr. Szklaruk,

On December 19, 2016, your sub-project numbered: 2011-0542-21 was reviewed and enormously approved by PI of the Blanket MRI protocol: 2011-0542, the MR Safety committee and MR Clinical Utility Committee.

On behalf of Dr. Madewell, we are pleased to inform you the above referenced sub-project: 2011-0542-21 has been approved for 20 total patients.

We thank you for the submission of your grant application, we wish much success with your sub-project.

If you have any questions about the review of these study, please contact Sujaya Rao, Director - Division Research Development.

Thank you,
