First of all, thank you for your careful guidance of this article. Revision has been made according to the suggestions of the reviewer:

**Reviewer: 02570462**

This is an interesting case report about the robotic-assisted resection of ovarian tumors in children. In this case report, Xie et al reported 4 children with ovarian tumors. The study is well written, the cases are presented in detail. The figures are clearly described the surgical procedure. Comments 1 Some minor language polishing should be corrected. 2 Literature review is excellent. However, please add some related references published in recent 3 years.

Thank you for your advice.

After receiving the comments, we read the article carefully and found some small loopholes in the language of the article and made modifications. Some changes were made on lines 7 of page 10, lines 8 and 10 of page 12. And I have add new references in article.

Interesting case of robotic-assisted resection of ovarian tumors in children. The surgical procedure is very detail, and clear. It will well guide the other clinician for the resection of ovarian tumors. Only the discussion is long, please check and revise.

We thank the reviewer for bringing these errors to our attention.

On page 9 to 10, I've cut out the discussion

According to the suggestion, we changed the relevant description.

Thank you again for publishing our manuscript in the World Journal of Clinical Cases.

Sincerely Yours,

Zihao Wang, BM, BCh
