Title: Endoscopic Management of Massive Rectal Bleeding from a Dieulafoy's lesion: case report and literature review.

Dear Reviewers:

We have corrected the details regarding our manuscript. Thank you for reviewing and for your suggestions.

Specifically, we have corrected "Dieulafoy's" (lines 14, 59 and 88) and correct alignment of the fifth column in Table 1.

A native English speaker corrected typographical and grammatical errors noted through out the text.

Thank you for your suggestions.

Best regards,
