

PEER-REVIEW REPORT

Name of journal: World Journal of Gastrointestinal Oncology

Manuscript NO: 49077

Title: shRNA-interfering LSD1 inhibits proliferation and invasion of gastric cancer cells via VEGF-C/PI3K/AKT signaling pathway

Reviewer's code: 02998430

Reviewer's country: France

Science editor: Jin-Lei Wang

Reviewer accepted review: 2019-06-24 01:26

Reviewer performed review: 2019-07-12 00:56

Review time: 17 Days and 23 Hours

SPECIFIC COMMENTS TO AUTHORS

The VEGF-C/PI3K/AKT signaling pathway plays an important role in lymphangiogenesis and metastasis of gastric cancer. This study investigated downregulation of LSD1 expression in order to observe the changes in gastric cancer cell

proliferation and invasion, and further explored the role of the VEGF-C/PI3K/AKT signaling pathway. Overall, this study is well designed and the results are very interesting. Before the final publication, the manuscript should be edited and revised. I have some minor comments to the authors: 1 The manuscript should be checked. Some blanks are missing, such as the title “gastric cancercells”, should be "astric cancer cells ". And some chinese comma should be replaced. 2 Background should be added in the abstract, only a title was listed. 3 Figures and table should be moved to the end of the main text. 4 Results are well discussed with updated references. However, the references list requires an editing according to the journal's style.
