## Management of Hepatic Encephalopathy in the Hospital

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4128786>

**Hepatic encephalopathy** (HE) develops in about 50% of patients with cirrhosis and is one of the features of decompensated cirrhosis. The inpatient incidence of HE is approximately 23,000/year and **management** of these patients is common for internists and subspecialists.

<https://www.hepatitisc.uw.edu/.../hepatic-encephalopathy-rifaximin> ▾

Activity 4B. **Rifaximin Therapy** for **Hepatic Encephalopathy**. You can choose to obtain **Continuing Medical Education** (CME) or Continuing Nursing Education (CNE) credit at that point, but you must answer at least 80% of the questions correctly. After finishing the **Lesson 4 Quiz**, proceed to the next **Lesson**. After finishing all Module 3 **lessons**, you will be ready to take the Module 3 **Self-Assessment**.

## Review article: potential mechanisms of action of ...

<https://onlinelibrary.wiley.com/doi/full/10.1111/apt.13435>

Nov 30, 2015 · **Hepatic encephalopathy**. Globally, **rifaximin** has been investigated or used in the treatment of HE for ≥30 years. In an early study of 32 patients with cirrhosis, elevated blood ammonia levels and symptoms of HE, **rifaximin** reduced serum ammonia and significantly improved neurological signs and symptoms of overt HE. 28 **Rifaximin** has subsequently been evaluated in numerous ...

## Management of Hepatic Encephalopathy in the Hospital

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4128786>

**Hepatic encephalopathy** eventually occurs in 50% of cirrhotics. 3,4 **Hepatic encephalopathy** portends a worse survival for patients compared to similar patients without HE, even after accounting for the Model for End Stage Liver Disease (MELD) score. 5 The development of **hepatic encephalopathy** merits consideration of liver transplantation. Whether treatment of HE alters survival is unknown.

Lessons from "real life experience" of rifaximin use in the management of recurrent hepatic encephalopathy

Fiona Chautant, Maeva Guillaume, Marie-Angèle Robic, Jean-François Cadranel, Jean-Marie Peron, Hortensia Lison, Charlene Cool, Christophe Bureau, Véronique Duhalde

## Abstract

### BACKGROUND

Hepatic encephalopathy (HE) is a major complication of cirrhosis with independent prognostic significance. The current management of HE is mainly based on lactulose.
