Primary Gluteal Abscess Due to Salmonella typhimurium: A ...

<https://www.sciencedirect.com/science/article/pii/S0002962915326318>

In this **case report**, we document the unusual finding of a **gluteal abscess** caused by **Salmonella typhimurium** in the absence of detectable bacteremia. Fluoroquinolones remain an important treatment option for **salmonellosis**, and to avoid potential treatment failures, we underscore the importance of **routine screening** for nalidixic acid susceptibility with all **extraintestinal Salmonella isolates**.

(PDF) Salmonella typhimurium infection in total knee ...

https://www.researchgate.net/publication/317634748_Salmonella_typhimurium_infection_in...

Prosthetic joint infection (PJI) due to **Salmonella spp.** is rare. We **report a case of a recurrent prosthetic infection** with involvement of two joints in a 72-year-old man and **review the literature**.

Salmonella enteritidis Infection Complicated by Acute ...

<https://www.hindawi.com/journals/crp/2011/574230> ▾

Salmonella has been rarely described as a **cause of myocarditis in the literature**. We describe a **case** of an 18-year-old previously healthy male patient with **myocarditis** after **Salmonella enteritidis infection**. Clinical manifestations and diagnostic approach of this severe complication are discussed with a **review of the literature**.

<https://tspace.library.utoronto.ca/bitstream/1807/4022/1/ni04167.pdf>

Salmonella spinal osteomyelitis: **A case report and review of literature** Shankar Acharya, Pallav Bhatnagar Sir Ganga Ram Hospital, Rajender Nagar, New Delhi - 110060, India. **A case** of vertebral osteomyelitis is presented where initial presumptive diagnosis of tuberculous infection was made on clinico-radiological grounds but eventually turned out to

Sacroiliitis due to Salmonella Typhi: A case report

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3354413>

Only a few **sacroiliitis cases** due to **Salmonella Typhi infection** have been reported in clinical literature. In the cases of **Salmonella Typhi sacroiliitis**, the **reported** clinical findings were high fever, **fever-heart rate discordance**, waist and hip pain, pain attacking the femur, and difficulty in walking[2–6]. In the **case reported** here, the patient applied to our hospital with complaints of fever, asthenia, abasia ...

Non-typhi Salmonella empyema: Case report and review of ...

<https://www.tandfonline.com/doi/abs/10.1080/00365540500264944>

A case of non-typhi **Salmonella** empyema is reported. A **review of the literature** over the past century found only 13 other empyemas due to **Salmonella typhimurium** and 25 cases of other non-typhi **Salmonella**. A **review** of pleuropulmonary disease due to non-typhi **Salmonella** is provided along with management recommendations.
