

# 免知情同意说明

本文是病例回顾性研究，主要研究病历中相关的化验检查和病程转归。并不涉及病人的个人信息。我们以向伦理委员会提交免知情同意申请，并通过伦理审批。

This is a retrospective case study, which mainly studies the laboratory examination and course outcome in the medical records. It does not involve the patient's personal information. We submit an application for exemption from informed consent to the Ethics Committee and pass the ethical examination and approval.
