Case Report: Ureteral metastasis from prostate cancer

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4154035>

There are no **reports** after the 1990s that describe bilateral **ureteral metastasis from prostate cancer**. 3 4 6 Our **case** also had unilateral **metastasis** to the **ureter** and the tumour was located beneath the mucosa, so the **ureteral metastasis** was thought to be haematogenous.

Bladder metastasis from primary breast cancer: a case report

<https://surgicalcasereports.springeropen.com/articles/10.1186/s40792-018-0484-6> ▼

Jul 09, 2018 · **Breast cancer** frequently metastasizes to the bone, lung, and liver. However, **metastasis** to the bladder is uncommon. Bladder **metastasis** due to direct infiltration from peripheral organs, such as the colon and rectum, prostate, and cervix, occurs more frequently than **metastasis** from distant organs, such as the **breast**. We **report a case** of bladder **metastasis** identified during treatment for ...

Parotid gland: an unusual site of breast cancer metastasis ...

<https://casereports.bmj.com/content/2017/bcr-2017-221842> ▾

Dec 05, 2017 · Parotid gland metastases from breast cancer are an extremely rare and unusual event with a limited number of cases recorded in the literature. A 71-year-old woman with a history of ductal adenocarcinoma of the left breast presented to the maxillofacial clinic with an asymptomatic swelling of the left parotid gland. The presentation occurred 21 years after she underwent treatment for recurrent ...
