To whom it may concern

Title of the Study: Sphere-forming corneal cells repopulate dystrophic keratoconic stroma: Implications for potential therapy.

The statistical methods of the study were performed and reviewed by Bert van der Werf, Senior biostatistician of the department of population Health and Biostatistics of the School of population Health of the Faculty of Medical and Health Sciences of the University of Auckland.

Yours sincerely

Bert van der Werf  
Senior Research Fellow Biostatistics
