populations. Therefore, it is very relevant for readership in WJD. Minor comments 1, In the marked places, it is suggested to add relevant references. Numerous variables impact inpatient glycemic control, including: the home diabetes medication regimen and glycemic control (ref); medications prescribed for acute conditions (e.g. steroids) (ref); comorbidities such as acute or worsened renal failure (ref); and nutritional status (ref). 2, Could authors provide links for the references of following information? Examples include Glytec's Glucommander™ system, GlucoStabilizer ® by Medical Decision Networks, and Monarch's EndoTool. ®
