

Dear Editor,

This is to certify that the manuscript *Notch2 regulates MMP9 via PI3K/AKT signaling in human gastric carcinoma cells* is reviewed for clarity by a colleague who is a senior Research Fellow/Senior Lecturer of the University of Sydney whose research interests includes liver cancer, NASH, cancer stem cells, signal transduction, and cancer gene therapy. We are sure that our meaning is clear and identify problems that require our revision.

We are also pleased to confirm that our English level is sufficient to define our thoughts in this manuscript.

Best wishes !

Yours sincerely,
