SPECIFIC COMMENTS TO AUTHORS

In this study, the authors reposted two cases of GCM in children. Some problems existed.

1. The language needs to be improved because of some grammar mistakes. 2. Use of abbreviations: When using an abbreviation, the full phrase should be given at the first time of use. Later, you can always use the abbreviation without mentioning the full phrase. However, the authors did not abide by this rule all the times. Even if the authors had given the full phrase at the first time of use, the authors alternate between the abbreviation and the full phrase. For example, cavernous malformation (CM). Please check the whole article and correct all similar problems. 3. INTRODUCTION: Please describe also the symptoms, treatment methods and treatment outcomes of this disease entity. 4. Table: Please give the full phrase of the abbreviation used in the table.
