SPECIFIC COMMENTS TO AUTHORS

This is an important review in kidney transplantation I have no conflict of interest. 1.

The author should also add the discussion on the rare use of Plasma Exchange for 1) Antiphospholipid Syndrome in kidney transplantation and 2) Severe/refractory Lupus e.g.: Plasmapheresis in a patient with antiphospholipid syndrome before living-donor kidney transplantation: a case report. BMC Nephrology volume 15, Article number: 167 (2014) Antiphospholipid syndrome in renal transplantation. Nephrology 19 (2014) 177-185 Plasmapheresis Is Associated With Better Renal Outcomes in Lupus Nephritis Patients With Thrombotic Microangiopathy Medicine (Baltimore). 2016 May; 95(18): e3595. 2. Following recently published PRISMA Extension for Scoping Reviews (PRISMA-ScR): Checklist Ann Intern Med. 2018, there are several items that will help standardized this excellent Scoping Reviews - Introduction: Please summarize rationale/and add objectives of this review to help readers follow this review easier. - Before conclusion, if possible, please provide limitations of current evidence/scoping reviews and potential implications and/or next steps.
