## Giant intradiploic epidermoid cyst with large osteolytic ...

<https://jmedicalcasereports.biomedcentral.com/articles/10.1186/1752-1947-6-85> ▼

Mar 22, 2012 - We report a case of tumor growth over a period of four decades, presenting with large multicentric lytic lesions of the skull and a profound mass effect, without neurological deficits. Clinical and radiological features of a patient with a giant intradiploic epidermoid and its impact on the choice of treatments are discussed. An 81-year-old Caucasian man, who had first noticed a painless ...

## Laparoscopic surgery of a presacral epidermoid cyst: A ...

<https://www.sciencedirect.com/science/article/pii/S2210261219302366>

Laparoscopic findings in the pelvic cavity. (a) The arrow indicates the tumor, which is located on the left side of the rectum (arrowhead). (b) The arrow indicates the retrorectal epidermoid cyst as a retroperitoneal tumor. (c) The epidermoid cyst is a well-defined lesion, and ablation between the tumor and surroundings was easy to perform.
