

Certificate of Biostatistics

September 1, 2019

To whom it may concern

Name of Journal: *World Journal of Gastroenterology*

Manuscript Title: *Risk of gastrointestinal cancer in a symptomatic cohort after a complete colonoscopy: role of faecal immunochemical test*

Authors: *Noel Pin Vieito, María J Iglesias, David Remedios, Lorena Rodríguez-Alonso, Francisco Rodríguez-Moranta, Victoria Álvarez-Sánchez, Fernando Fernández-Bañares, Jaume Boadas, Eva Martínez-Bauer, Rafael Campo, Luis Bujanda, Ángel Ferrandez, Virginia Piñol, Daniel Rodríguez-Alcalde, Jordi Guardiola and Joaquín Cubiella, on behalf of the COLONPREDICT study investigators.*

Biostatistics statement: I am writing to confirm and certify that I reviewed the statistical methods of this study and to my knowledge, all the statistical methods are performed appropriately.

Below is a list of merits which qualify me for that purpose:

- *Diploma in Biostatistics and Master's Degree in Research Methodology from the Universidad Autónoma de Barcelona (2005-10).*
- *Post graduate expert courses in programming dynamic web applications (2008) and epidemiology and new technologies (2011) by the Universidad Nacional de Educación a Distancia."*

Kindly let me know if you have any further questions.

Sincerely,

Noel Pin Vieito, MD,
Department of Gastroenterology,
Complejo Hospitalario Universitario de Ourense.
