

## Biostatistics Review Certificate for World Journal of Diabetes

I, Dr. Wuxiang Xie, the corresponding author of the manuscript titled “Long-term effect of clopidogrel in patients with and without diabetes: A systematic review and meta-analysis of randomized controlled trials”, has received my PhD from the Department of Epidemiology and Biostatistics, Peking University, and has accepted post-doctoral training at the Department of Epidemiology and Biostatistics, Imperial College London. The statistical analysis of this article was performed by myself.

Wuxiang Xie, PhD

Associate Professor,

Peking University Clinical Research Institute

Peking University Health Science Center

Beijing, China
