October 11, 2019

The manuscript was re-read carefully by me.

I had a chance to work with Dr. Mao during his visitation at our Hospital as a Visiting Scholar from 7/1/2015 to 10/1/2015. I was impressed by his professionalism, practice experience and knowledge in The Diagnostic Radiology. It was appreciated through his good English communication capacity. His two lectures in our department were successful and highly appreciated by the Faculties and Residents. I noticed that his dictation and professional writing in English were so good, I barely need do any corrections before sending the reports out. His scientific publications in English language were quite American style.
