

Endoscopic Ultrasound Guided Liver Biopsy: Recent Evidence.

Response to reviewers

Many thanks for the excellent review of our manuscript

Below are the point wise changes to reviewers (Changes are highlighted in yellow)-

We also added 2 more EUS images to figure 1 panel (also highlighted in yellow).

Reviewer 1

1. Although it is written in the text (Page 17, line 8 from end) that “Figures 2-5 demonstrate.....”, there are no figures numbered 3-5. Correct appropriately.

Changes made

2. Page 17, last line: Delete “of the”.

Reviewer 2

But one of main limitation of endoscopic ultrasound is limited availability in pediatric field. Please add some sentences about pediatric field and complication of liver biopsy in children.
