

## PEER-REVIEW REPORT

**Name of journal:** World Journal of Clinical Cases

**Manuscript NO:** 52117

**Title:** Transorbital nonmissile penetrating brain injury: a case series

**Reviewer's code:** 00502853

**Position:** Editorial Board

**Academic degree:** MD, PhD

**Professional title:** Doctor

**Reviewer's country:** Spain

**Author's country:** China

**Reviewer chosen by:** Ying Dou

**Reviewer accepted review:** 2019-11-20 11:09

**Reviewer performed review:** 2019-11-25 12:52

**Review time:** 5 Days and 1 Hour

### SPECIFIC COMMENTS TO AUTHORS

The authors must congratulated by their excellent and illustrative presentation of these

rare clinical cases. The cases are well supported by the images presented. Some minor comments I agree that high-spectrum antibiotics should be given but due to the low number of cases and the heterogeneity of the foreign bodies it is difficult to recommend one antibiotic over others. I believe that a discussion on potential vascular injuries (risk factors and neuroimaging work-up) would increase the manuscript (ie: J Med Radiat Sci. 2015; 62:122-31).
