Vitamin D treatment attenuates 2,4,6-trinitrobenzene ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5020649>

In this study, we have tried to address the role of vitamin D in CD and UC using two mouse models. Mice of C57B6L were given vitamin D before the induction of colitis. Our results showed that vitamin D attenuated 2,4,6-trinitrobenzene sulphonic acid (TNBS)-induced colitis but not oxazolone-induced colitis.
