PWE-110 Impact of a simulation-based induction ...

https://gut.bmj.com/content/68/Suppl_2/A254 ▾

Jun 01, 2019 · Introduction Pre-clinical **simulation-based training** (SBT) in endoscopy is associated with improvements in **trainee** performance and patient **outcomes**. However, the durability of **trainee** benefit is unclear, and pre-clinical SBT remains largely unavailable in the UK. We assessed the **impact** of a **gastroscopy induction programme** (SPRINT), a two day course with review of skills handling, lesion ...
