A novel method for lymphadenectomy along the left ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4740152>

We herein present a **novel method for lymphadenectomy along the left RLN during thoracoscopic esophagectomy** in the semi-prone position for **esophageal carcinoma**. The method, suspension the **esophagus** and push aside trachea, allows en bloc **lymphadenectomy along the left RLN** from the below aortic arch to the thoracic inlet.
