## Strategies for the Care of Adults Hospitalized for Active ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4226798>

**Ulcerative colitis** is a chronic inflammatory disease of the colon; as many as 25% of **patients** with this disease **require** hospitalization. The goals of hospitalization are to assess disease severity, exclude infection, administer rapidly acting and highly effective medication regimens, and determine response.

## Entyvio

Generic drug name: Vedolizumab

Vedolizumab is a monoclonal antibody developed by Millennium Pharmaceuticals, Inc for the treatment of ulcerative colitis and Crohn's disease. It binds to integrin  $\alpha_4\beta_7$ . Blocking the  $\alpha_4\beta_7$  integrin results in gut-selective anti-inflammatory activity. It is marketed under the trade name Entyvio.
