

## Explanation Letter

Dear editor(s),

I would like to put this into your kind attention. The authors contributed to this manuscript are non-native English speakers, but we all have studied abroad for more than one year. Especially Yu-feng Zhang, he had studied abroad for 3 years and he is good at English writing. Also, he has published more than 100 SCI papers. He supervised and modified this manuscript.

I hope this situation is acceptable for our manuscript.

Thank you.

Sincerely,

Min Wang
