

List of Responses

Dear Editors and Reviewers:

Thank you for your letter and for the reviewer's comments concerning our manuscript entitled "Manuscript NO: 52811". Those comments are all valuable and very helpful for revising and improving our paper, as well as the important guiding significance to our researches. We have studied comments carefully and have made correction which we hope meet with approval. Revised portion are marked in red in the paper. The main corrections in the paper and responds to the reviewer's comments are as flowing:

Responds to the reviewer's comments:

Reviewer #1:

1. Respondse to comment: 1. Title: suggest to change.

Response: As reviewer suggested that title have changed "Severe venous thromboembolism in the puerperal period caused by thrombosis: a case report and review of the literature".

2. Respondse to comment: The abstract should be re-wrote according to the journal's guideline.

Response: As reviewer suggested that the abstract have re-wroted according to the journal's guideline.

3. Respondse to comment: The structure is not according to the journal's guideline.

Special thanks to you for your good comments.

Response: As reviewer suggested that the structure of case report have re-structured according to the journal's guideline.

Reviewer #2:

1. Respondse to comment: The authors should put in the abstract something about the reported case, as it seems that only a review of the literature was made. "Cefuroxime sodium combined with metronidazole" are antibiotic and non-inflammatory treatments.

Response: As reviewer suggested that we have re-wroted the abstract and have re-structured the structure of case report according to the journal's guideline.

2. Respondse to comment: The literature review in the discussion should be improved by including more articles published from 2014.

Response: As reviewer suggested that we have re- improved the literature review in the discussion including no8,no16 and no20.

Special thanks to you for your good comments.
