The Mayo Clinic Institutional Review Board (IRB) acknowledges that based on the responses submitted for this new activity through the Mayo Clinic IRBe Human Subjects Research Wizard tool, and in accordance with the Code of Federal Regulations, 45 CFR 46.102, the above noted activity does not require IRB review.

Other Federal, State and local laws and/or regulations may apply to the activity. This study must be reconsidered for submission to the IRB if any changes are made.

The Principal Investigator is responsible for the accuracy and reliability of the information submitted through the Human Subjects Research Wizard tool, for following all applicable Federal, State and local laws and/or regulations, and is also responsible for submitting research studies to the IRB when required.

Additional Information for investigators:

If this activity involves research using human biospecimens (including autopsy or cadaveric specimens), the protocol may need to be submitted to the Biospecimens Subcommitee. Please visit http://intranet.mayo.edu/charlie/biospecimen- subcommittee/ for more information.

Additionally, if you or anyone conducting this activity has a financial conflict of interest related to this activity, please contact the Conflict of Interest Office at (507) 266-9147.

<u>For Decedent Research Chart review studies ONLY:</u>

HIPAA permits research using decedent (deceased person) records without authorization, waiver or de-identification of data based on the fact that you made the following representations:

- The Protected Health Information will be used solely for research on the Protected Health Information of decedents.

- Access to the Protected Health Information is necessary for the purposes of this research study.

- Upon request, you will provide documentation of these individuals' deaths.

Please complete the text boxes on the first page, then save and print a copy for your records as documentation for future audits or as requested.
