

## **Response letter**

Thank you for reviewing our paper manuscript # WJG-52996 entitled

**“Differentiation of atypical hepatic hemangioma from liver metastases:**

**Diagnostic performance of a novel type of color contrast enhanced ultrasound”**

and we really appreciate your wonderful comments. In the revised version, we have attempted to successfully provide a reasonable answer for each question and revised the paper according to the valuable recommendations.

### **To Reviewer-1**

**This is an interesting study on the use of ultrasound for diagnosis and follow up of liver hemangioma vs. liver metastases.**

**Response:** Thanks for your comments. Regarding to “Minor language polishing”, this manuscript has been polished by a professional English language editing services - American Journal Experts. Please see the attachments.

### **To Reviewer-2**

This is a good and interesting paper, welcome for the clinical practice. Please continue the study as a prospective one. Underline that CPI is useful especially for people with lower CEUS experience.

**Response:** We thank you for your positive comments. We has underlined that CPI is useful especially for people with lower CEUS experience in the discussion.
