

Answering reviewers and Summary of changes

Dear editor:

We would like to say thank you to the reviewers and editors for your approval of this case report. The helpful comments made by Diego García-Compeán have summarized the main particularities of this case report, and it is consistent with the notions we discussed in the case report. We also appreciate the comments made by another reviewer who thinks our case report is well written. So we only made some trivial changes (language polishing) on this revision and do the supplement as demand. All the revise didn't change the original meaning of the first manuscript.

Thank you again for everything you have done, especially for the revision of the paper, and if there is any question, please don't hesitate to let us know.

Best regards.

Yours sincerely,

Xiao Nianjun
