#### *Coding system*

The author should number the references in Arabic numerals according to the citation order in the text. The reference numbers will be superscripted in square brackets at the end of the sentence with the citation content or after the cited author's name, with no spaces. For example, "Crohn's disease (CD) is associated with increased intestinal permeability<sup>[1,2]</sup>." If references are cited directly in the text, they should be included with the direct citation content within the text; for example, "From references<sup>[19,22-24]</sup>, we know that...". Before submitting your manuscript, please ensure that the order of citations in the text is the same as in the references section, and also ensure the spelling accuracy of the authors' names. Do not list the same citation twice (*i.e.*, with two different numbers)

Response: modified.

4. Please provide the decomposable figure of Figures, whose parts are movable and editable. So you can put the original pictures in **PPT** and submit it in the system.
