Dear Jin-Zhou Tang,

Manuscript No. 50110, Qureshi et al

I am writing to certify the English language quality of the manuscript submitted by Qureshi et al (50110).

I have read through the manuscript carefully and I can confirm that the level of English is extremely high, comfortably exceeding the B Level requirement. I detected very few English language errors and provided feedback on them to the author. Comprehension was clear throughout. The register was also highly appropriate for publication in a scientific journal.

Should you require further details about the English language quality of the manuscript, please do not hesitate to contact me.

Yours sincerely,

Roger Smith
English Language Consultant
