

Note from your editor:

Thank you for the opportunity to review this interesting overview on H. pylori management.

The manuscript is fairly polished, and for the most part, the ideas are organized well. Unfortunately, issues stemming from improper use of the English language do interfere with the transmission of the intended meaning of the author.

I have done my best to preserve the intended meaning while making the necessary linguistic changes, and ask the author to excuse the editor for any unintended changes to the meaning of the document.

Please do let us know if you have any questions regarding the corrections or comments. Thank you, and good luck with the publication process!

Best,
Aram Harijan, M.D.
