### **To Whom It May Concern**

I hereby declare that manuscript no. 00503042, entitled: "PICOT promotes T lymphocyte proliferation by down-regulating cyclin D2 expression", by Noah Isakov, which is under consideration for publication in World Journal of Immunology, was written by myself, and that after 10 years of scientific work within the USA, my scientific English is at the highest level. As an extra precaution, the manuscript was re-read by the Scientific Editor of the Faculty of Health Sciences, Ms. Caroline Simon, who found the manuscript highly suitable for publication.

Sincerely,

A handwritten signature in black ink that reads "Noah Isakov".

Noah Isakov, Ph.D.

Professor

The Shraga Segal Department of Microbiology, Immunology and Genetics
